

Chapter 14 Lesson 1 Drug Misuse & Abuse Study Guide

1. A Drug is a substance other than food that changes the function of the body or mind.
2. There are two types of medicines that can be purchased at pharmacies.
 - Prescription medicines can only be sold with a written order from the Doctor

A Prescription Drug Label

- Over the Counter medicines you do not need a written order from the doctor.

An Over-the-Counter Label

3. Taking or using a medicine in a way that is not intended is Drug Misuse.

Ways to misuse medicines:

- Don't follow the instructions.
- Using a drug not prescribed for you.
- Allowing someone else to use your medicine.
- Not following the dosage prescribed.
- Using the drug longer than prescribed.

4. a Side Effect is an effect from the medicine other than the one intended
(Ex. upset stomach, drowsiness)

5. Drug Abuse is intentionally using drugs that are unhealthy or illegal or using legal drugs for the wrong reasons (not what it was intended for).

6. Drug abuse hurts all 3 sides of the health triangle

- Physical Health- irritability- heart failure or stroke
- Mental Health- difficult to concentrate, depression, or anxiety
- Social Health- with draw from family & friends, lose interest in school & activities.

7. People who abuse drugs are at risk for Addiction a physical or psychological need for a drug.
